ACADEMIC COMPETITIONS

Academic Competitions help students build important skills such as leadership, critical thinking and communication. Participation also builds a sense of community and leads to better academic outcomes for students. In the “COVID era” Academic Competitions have become even more important to students because, while building skills, they also offer a sense of normality and stability. Many of the SCM’s teams finished in the top of their divisions and one (VEX) qualified for the world championships. MEF’s support has allowed teams to compete at a high level no matter how difficult the circumstances and provides a necessary outlet for the passion Mishawaka students possess. Because some competitions, fine arts and athletic programs had to be cancelled or modified due to COVID, MEF will support Fine Arts and Athletics this year as well. With the MEF’s continued support, School City of Mishawaka maintains the ability to provide students with new opportunities to make their school experience more memorable and beneficial to their bright futures.

\$38,000 Raised at the 2020 Chip in for Education Golf Tournament
